USA SWIMMING ON-LINE MEET ENTRY PROCEDURES

- Ensure that swimmers times are loaded into the USA Swimming SWIMS database
 - Particular attention should be given to times achieved in observed and approved meets.
 - Do not wait until immediately before the entry deadline to discover the time has not been loaded into SWIMS. Coaches and swimmers can verify that times are in the database using the times look up at www.usaswimming.org/times.
 - Contact the host LSC National Times Coordinator of the meet at which the times were achieved to have the missing times loaded.
- Only one account per team (Head Coach) can be used for team entries. Teams with multiple sites and contact USA Swimming for entry procedures.
- Read the tutorial comments on each page during the entry process. Most questions are answered in these instructions.
- When advancing through the entry process, each time the “NEXT” link is pressed, the information on that page is saved.
 - This allows the entry to be processed during multiple sessions.
 - Coaches can start an entry, save it as-you-go, and sign out without finalizing the entry (“checking out”).
- Use the links on the left side of the entry page to jump forward or backwards to specific sections of the entry process. Using these links also saves the information on the previous page.
- Once an event entry has been purchased (i.e. checked out), it cannot be deleted. However, additional entries can be made for that swimmers, and entry times can be updated.
- **Entry times are not automatically updated if a faster time is achieved by the swimmer. However, an entry time can be updated up until the entry deadline even if the event was “checked out”.**
- Teams do not have to wait until the entire entry process is complete to “check out”. Teams can enter some athletes and purchase (“check out”) those events, then return at a later date and add more athletes, events, and relays.
- **Check-out for all events must occur before the entry deadline.**
- When entering “Override Times” (times not showing up in the SWIMS database), in the meet name field, enter the name and brief details of the swim. There is room for 25 characters of data. Also enter the date of the meet in the date field.
- Relays: When entering more than one relay per event (e.g. A and B), OME selects the fastest time in the database for the A relay and the fastest remaining time in the database for the B relay.
 - If one of the athletes on the B relay (that OEM selected) was also an athlete on the A relay, OME will signify that time with a “**”).
 - That time is not eligible for entry for the B relay.
 - Select another listed time for the B relay or enter an aggregate time.
- Hy-Tek Team Manager can be used as a tool to assist in the OME process.
 - Download the “Meet Events File” from the PVS web site and load it into Team Manager
 - In the Meet Maintenance panel, set the minimum age for open events as desired.
 - Click on “Enforce Qualifying Times”
 - Verify the “Use Times Since” date is set to the beginning of the qualifying period for the meet.
 - Create a “Meet Eligibility” report. Select “Only Eligible Swimmers”. This report shows all eligible swimmers for the meet.
 - Highlight the events to be entered for each swimmer. Proceed with the On-Line Meet Entry
